"The Fine Print"

- Please allow up to 2 hours for your session to ensure that breathtaking portraits can be captured. We will ease into the session, and allow time for unexpected interruptions. I like to use a relaxed approach, without focusing too much on props to capture you and your child(ren) as they are and let everyone's true spirit shine through.
- You may choose to have the session in your home or at the location of your choice. Your child may bring a favourite toy, comfort item, or a fun hat to be photographer with. A favourite snack can also sometimes help them to feel as relaxed as possible.
- Immaculate Images Photography accepts cash, cheque or money order for payments. A \$35 fee will be charged for any NSF cheques. Please make Cheques and money order out to: Brent Davidson

- With purchase of digital images it is your choice what you do to acquire your enlargements; Immaculate Images Photography can only guarantee the quality of prints if they are ordered through Immaculate Images Photography.
- Your pictures are usually ready for delivery 2 weeks after your session.
- In order to receive Portrait Pictures in time for Christmas, photo shoots must be completed by the end of November.
- Full payment required the day of the session, any additional item due upon delivery.
- All prices subject to change.
